EICKEMEYER® NarkoVet Anaesthetic Unit

The EICKEMEYER® NarkoVet Anaesthetic Unit is now even more flexible: Can be set up as a desk, wall or stand model.

- High accuracy Rotameter (0.1 – 5.0 l/min)
- System pressure gauge
- Infinitely adjustable pressure relief valve
- Oxygen bypass
- EICKEMEYER® TEC 3 Isoflurane Vaporiser
- Soda Lime canister and accessories
- Safety valve for manual ventilation included (213083)
- Suitable for small animals up to 80 kg
- Dimensions (in cm): L 32 x W 25 x H 51
- OxyVet IV Oxygen Concentrator (213180) sold separately

Item No.

213062	EICKEMEYER® NarkoVet Anaesthetic Unit • Table mounted model
21309403	Wall Bracket for NarkoVet Table mounted Model • Enables the table model to the wall model
21309535	Anaesthetic Unit Trolley
213098	Anaesthetic Unit Oxygen Concentrator Shelf • For supporting oxygen concentrators
21309902	Anaesthetic Unit Top Shelf • For monitoring devices • Dimensions (in cm): L 60 x W 30
213180	OxyVet IV Oxygen Concentrator • Detailed information on the OxyVet IV oxygen concentrator (213180) can be found on page 7
213068	Starter Kit for NarkoVet Complete Set, consisting of: • Isoflurane Safety Key Filler • EickSorber Anaesthetic Gas Absorber • Scavenging System Hose, 2 m, transparent • 3 Soda Lime Anaesthesia, 5 l, with colour indicator • 3 Rebreathing Bags (1, 3 and 5 l) • 6 Anaesthesia Masks (size 1 – 6) • 9 PVC Endotracheal Tubes (2.5 – 10 mm) • Laryngoskop ECONOMY

EICKEMEYER® NarkoVet LIGHT Anesthesia Unit

The EICKEMEYER® NarkoVet LIGHT is a cost effective anesthesia unit for small animals. It includes quality parts like the brass Vaporiser, Breathing Circuits and an Anaesthetic Gas Filter.

- High accuracy Rotameter (0.1 – 5.0 l/min)
- EICKEMEYER® TEC 3 Isoflurane Vaporiser
- Oxygen bypass (O₂ flush)
- Patient exit: outer Ø: 22 mm / inner Ø: 15 mm
- Ayre's T-Piece breathing circuit for patients under 7 kg
- Semi disposable Circle Circuit for patients over 7 kg including patient hose with Y-piece, 2.0 l breathing bag and APL pressure relief valve
- EickSorber anaesthetic gas filter with holder and exhaust pipe
- Storage tray and hook for additional breathing bags
- Stable base with 5 castors (Ø 54 cm)
- Dimensions (in cm): H 142 x W 67 x D 54
- Weight: 14.5 kg

Item No.

213071 EICKEMEYER® NarkoVet LIGHT Anesthesia Unit

213072 O₂ Upgrade for EICKEMEYER® NarkoVet LIGHT

- The O₂ upgrade consists of the reliable OxyVet IV oxygen concentrator (213180) and a stable bracket onto which the NarkoVet LIGHT is attached. O₂ concentrators save money and effort, with very low power consumption and no need for oxygen bottles.
- Detailed information on the OxyVet IV oxygen concentrator (213180) can be found on page 7

213078 Pressure Gauge for EICKEMEYER® NarkoVet LIGHT

- To carry out a leak test
- With retaining plate and connection piece
- Semi-disposable

213077 Starter Kit for NarkoVet LIGHT Complete Set, consisting of:

- Isoflurane Safety Key Filler
- Soda Lime Anaesthesia, 5 l, with colour indicator
- 3 Rebreathing Bags (1, 3 and 5 l)
- 6 Anaesthesia Masks (size 1 – 6)
- 9 PVC Endotracheal Tubes (2.5 – 10 mm)
- Laryngoskop ECONOMY

Accessories and Spare Parts for NarkoVet Anaesthetic Unit

Item No.

212718	Anaesthetic Circuit Tubing • Y-Connector • Transparent • Smoothbore • Ø 22 mm • Length: 1.2 m
21309514	Ayre's T-Piece Breathing Circuit • For patients < 7 kg • Pressure relief valve • Length: 1.8 m • Includes: 0.5 litre rebreathing bag
21309510	Adapter • Outer Ø: 15 mm to 9 – 11 mm
199087	Suction Hose • Autoclavable • Supplied per metre • Inner Ø: 7 mm
212729	Scavenging System Hose • Transparent • Supplied per metre
21309513	Adapter for Scavenging Hose • Compatible with 22 mm and 30 mm scavenging hoses • Straight • Outer Ø: 22 mm; inner Ø: 30 mm
215020	Rebreathing Bag • Includes: Hanging hook • 2 l
E2130951501	Valve Cover for Absorber
E2130951504	Gas Absorber for NarkoVet • Sold individually
E2130951505	Sealing Ring for Valve Cover of Gas Absorber
E2130951506	Valve Plates for Absorber • Made of Plastic
213083	Safety Valve for Manual Ventilation • This emergency valve interrupts a part in an semi-open system in case of manual ventilation being needed. • This means that upon actuation of the valve, the tube in which the valve is will be completely blocked. • Note: This valve is NOT an overpressure valve. Such a valve would, with too much pressure, open.

Anaesthetic Unit – Research

- Ideal for pets up to 3 kg
- Stainless steel construction
- Compact
- Includes: EICKEMEYER® TEC 3 Isoflurane Vaporiser, Flowmeter 0 – 4.4 litres/min

EICKEMEYER® TEC 3 Isoflurane Vaporiser

This style of vaporiser has been the industry standard for many years.

Features

- Calibrated dial: 0 to 5 % at 0.5 % intervals
- Laser calibrated (0.25 to 5 %)
- Large sight glass for easy liquid level checks
- Safety lock
- Frame mount (23 mm male/female tapers)
- High precision anaesthesia control
- 0 – 7 Volume % option available
- Isoflurane Safety Key Filler (213246) not included

Item No.

213175

OxyVet III Oxygen Concentrator (5 l)

An oxygen concentrator draws in room air, separates the oxygen from other gases in the environment and delivers the oxygen at high concentrations.

Features

- Flowrate: 0.5 to 5 l/min
- Oxygen concentration: 93 % $\pm$ 3 %
- Sound level: 40 dbA (50 Hz)
- Electrical requirements: 230 V / 50 Hz
- Power consumption: approx 290 watt @ 2 l/min and approx. 312 watt at 5 l/min
- Dimensions (in cm): L 34 x W 30.4 x H 62
- Weight: 16.3 kg
- 3 Year Warranty

Item No.

213175	OxyVet III Oxygen Concentrator (5 l)
213176	Bubble Humidifier • Humidifies oxygen prior to patient delivery
212995	Oxygen Pipe • Per metre
199087	Suction Hose • Autoclavable • Per metre
E213175001	Coarse Air Filter • Pack of 6 pieces
E213175002	Long-Life Bacterial Filter • To be replaced every 3 years or 8,000 hours
E213175003	Connection Nipple • Adapter for 3/8" Hose • Made of Plastic • Colour: Green

213177

OxyVet III PLUS Oxygen Concentrator

The most compact and lightweight 10 litre oxygen concentrator suitable for anaesthesia use.

- Energy efficient system as it does not require an oxygen cylinder
- Easy to use interface with clear arrangement of functions and monitoring information
- Visual and audible alarms ensure patient safety (low oxygen concentration, power failure, pressure drop or device malfunction)
- Very low audible levels (60 dbA)
- Additional oxygen outlet enables the use of all common filling stations (in combination with optional storage)
- Adjustable flow rate: 2 – 10 l/min
- Oxygen concentration: 96 %
- Outlet pressure: 1.38 bar $\pm$ 0.07 bar
- Dimensions (in cm): L 34 x W 30 x H 62
- Weight: 19 kg

Item No.

213177	OxyVet III PLUS Oxygen Concentrator
213176	Bubble Humidifier • Humidifies oxygen prior to patient delivery
E213175001	Coarse Air Filter • Pack of 6 pieces
E213175002	Long-Life Bacterial Filter • To be replaced every 3 years or 8,000 hours

OxyVet IV Oxygen Concentrator

Oxygen concentrator for use in oxygen therapy and anaesthesia. An oxygen concentrator draws in room air, separates the oxygen from other gases in the environment and delivers the oxygen at high concentrations.

- Saving costs and effort: No oxygen bottle required, lower power consumption
- Simple operation thanks to the clear arrangement of the setting functions and monitoring information
- High patient safety through visual and acoustic alarms
- Noise level: ≤ 55 dbA
- Flow rate continuously adjustable from 0.5 – 5 l/min
- Output of up to 93 % oxygen (± 3 %)
- Incl. Bubble humidifier and O₂ hose
- Dimensions (in cm): L 34 x W 37 x H 67
- Weight: 15.3 kg

Item No.

213180	OxyVet IV Oxygen Concentrator
E213175004	Connecting Tube • For connecting Bubble Humidifier to OxyVet IV
212995	Oxygen Pipe • Supplied per metre
199087	Suction Hose • Autoclavable • Supplied per metre
E21318003	Air Filter for OxyVet IV • Replacement part
E21318005	Coarse Filter for OxyVet IV • Replacement part
E21318004	Bubble Humidifier for OxyVet IV • Adds moisture to the air created by the oxygen concentrator

213180

Oxygen Regulator

- Compatible with DIN gas cylinders
- Displays gas pressure and volume
- Pre-Set 4.5 bar

Item No.

212704	Oxygen Regulator
--------	------------------

Oxygen Therapy Tent

Perform a simple and effective oxygen/nebulization therapy. PVC sleeve can be used to connect a cat cage to an oxygen source. The ventilation can be adjusted by opening the zipper – depending on the patient's condition/oxygen demand.

- Stress-free therapy – compared to conventional therapies with nasal cannula/mask
- Full view of the patient through the 3 mm PVC sheath – allow you to monitor their breathing pattern during treatment
- Large
- Includes: Oxygen Tent, Bottom Shell, Bulkhead and Hose, Nebuliser and 5 Venturi
- Dimensions incl. Case (in cm): L 54 x W 38 x H 38
- Weight: 2 kg

Item No.

214665 Oxygen Therapy Tent

NarkoVet SAV Respirator for Small Animals

The main cause of serious anaesthetic incidents in veterinary practices is the patient's unnoticed apnea. Routinely controlled ventilation helps to drastically reduce the risk of anaesthesia and thus ensures the optimal safety of your patients.

The setting of the NarkoVet SAV is extremely user-friendly, just set the patient's body weight and the intelligent software automatically adjusts all other ventilation parameters.

- Simple control – the ventilator controls all breathing parameters independently
- Three different ventilation modes: volume-controlled ventilation (VCV), pressure-controlled ventilation (PIP-CV), apnoea mode (controlled spontaneous breathing with apnoea detection)
- Clear "at a glance" ventilation parameters thanks to the large color display
- Inclined control panel for easier reading and operation by touch
- Acoustic and optical alarms ensures high patient safety
- Long battery life of up to 4 hours

Technical specifications

- Ventilation rate: 2 – 60 bpm
- Tidal volume: 20 – 1,500 ml
- Maximum ventilation pressure: 5 – 35 cmH₂O
- Release pressure -9,0 – -1,0 cmH₂O
- Patient weight range: 2 – 100 kg
- Touchscreen: 5" LCD color display, 800 x 480 px
- Mains and battery operation, battery life up to 4 hours
- Power supply: 100 – 240 V
- Mains voltage: 50/60 Hz
- Dimensions (in mm): L 253 x W 224 x H 112
- Weight: approx. 3.2 kg

Ventilators are pneumatically driven. A compressed air source is required to operate the NarkoVet SAV (e.g. compressor item no. 17430002).

Item No.

213015 NarkoVet SAV Respirator for Small Animals

ADS 2000 Ventilator Machine for Small Animals

Microprocessor controlled positive pressure ventilation/anaesthetic delivery system ideal for small animals.

- Automatically sets breathing parameters
- Mask mode to maintain patient on mask
- LCD display shows all important parameters
- Patient weight ranges 0.1 to 68 kg
- 12 hour emergency back-up battery
- Simple and easy to use, DVD and operation manual

Requires a compressor (17430002) to operate the ventilator.

Other accessories needed with the compressor are:

17404301/17402311/17402312/17402313.

Recommended Accessories:

- Endotracheal Tube Connector (213059)
- Y-Connector (213057)

Item No.

213010	ADS 2000 Ventilator Machine for Small Animals
212719	Anaesthetic Circuit Tubing – Coaxial • Tube within a tube • Ø 22 mm • Length: 1.6 m
213013	Tube • Made of silicone • 2x inner Ø: 22 mm

	• Fits for Anaesthetic Unit Trolley (21309535)

213480

Anaesthetic Unit Scavenging System

- Active scavenging provides a safe and cost effective method of ensuring health and safety of the staff in the operating theatre
- The system exhausts all anaesthetic waste gases without depleting oxygen and anaesthetic gases from the machine
- Normal anaesthetic protocols or machines do not need to be altered
- Easy to install

Item No.

213480	Anaesthetic Unit Scavenging System
212729	Scavenging System Hose • Transparent • Supplied per metre

Soda Lime Anaesthesia

Medical grade Soda Lime is used to remove carbon dioxide in closed anaesthesia circuits. Use with rebreathing circuits to prevent rebreathing of CO₂.

Item No.

LifeVet PT Pulse Oximeter with Temperature Probe

The portable LifeVet PT can measure and display the functional oxygen saturation of arterial haemoglobin (S_pO_2), pulse rate and body temperature in real time in small animals and horses. All important parameter information can be easily read on the large LCD display.

- Small, handy and sturdy
- Immediately ready for use – no calibration necessary
- Display of oxygen saturation from 35 to 100 %
- Display of the pulse rate from 25 to 400 beats per minute (bpm)
- Display of body temperature from 18 to 45 °C
- Alarm limits (optical & acoustic) individually adjustable
- 2.8" TFT LCD colour display with battery level indicator
- Test results can be stored for up to 360 hours
- Incl. S_pO_2 sensor with two sensor clips (large & small), temperature probe, universal charger, USB cable, Li-Ion battery, protective silicone case and holder for tabletop use
- Dimensions (in cm): H 14.2 x W 7.8 x D 2.8
- Weight: 250 g (device only)

Item No.

321860	LifeVet PT Pulse Oximeter with Temperature Probe
E32186001	S_pO_2 Clip Sensor for LifeVet PT • With small and large clip
E32186002	Replacement Clips for LifeVet PT • Small & large
E32186003	Temperature Probe for LifeVet PT • Length: 2 m
E32186004	Universal Charger for LifeVet PT • Incl. USB cable (length: 2 m)
E32186005	Replacement Battery for LifeVet PT

Pulse Oximeter Sensors

- Specially designed veterinary sensors
- Suitable for each species
- Provides optimal signal reception

Item No.

321651	Pulse Oximeter Lingual Sensor • Compatible Units (321650/321810/321820/321815/321825)
32140001	Pulse Oximeter Rectal Probe • Suitable for small animals • Compatible Units LifeVet PT (321860), LifeVet P (321865), VETVISOR Light (321840), VETVISOR (321850), CAPNOVET PRO (321390)
321330	Pulse Oximeter Lingual Sensor • Compatible Units VETVISOR (321850), VETVISOR Light (321840), CAPNOVET PRO (321390)

LifeVet CP Capnograph and Pulse Oximeter

The LifeVet CP handheld Capnograph and Pulse Oximeter measures and displays the expiratory CO₂ concentration as well as the respiratory rate, pulse rate and oxygen saturation in dogs, cats and horses. This compact and portable device is very easy to use with its touchscreen display and intuitive interface.

Features

- High resolution 4.3" touch screen display
- Side-stream capnography
- EtCO₂ concentration: 0 – 150 mmHg
- Respiratory rate displayed in rpm
- S_pO₂ range: 1 – 100 %
- Pulse rate: 25 – 250 bpm
- Audible and visual alarms with adjustable volume
- Long-life Li-Ion battery: up to 18 h operating time
- Weight: 420 g
- Dimensions (in cm): W 7.7 x H 14.1 x D 3.6

Item No.

321880	LifeVet CP Capnograph and Pulse Oximeter

LifeVet 8 Monitoring and Anaesthesia Monitors

The LifeVet 8 Monitors are modern, high performance patient monitors that deliver flexibility and efficiency all in a compact and portable device. The large display makes it easy to read the vital signs and operation is via touch screen. The shortcut buttons provide quick access to the most important functions and the fanless design ensures a quiet treatment environment.

The following parameters can be monitored with the LifeVet 8M:

- Respiratory rate (display between 0 and 150 rpm)
- Pulse rate (display between 20 and 350 bpm)
- Oxygen saturation (S_pO_2) (display between 0 and 100 %)
- Blood pressure (NIBP) (display between 10 and 285 mmHg)
- Temperature (display between 0 and 50 °C)
- 3-lead ECG

Technical specifications

- High-resolution 8.4" LED touch screen with backlight (resolution: 800 x 600 pixels)
- Display of up to 8 waveforms
- Freely selectable alarm limits
- 360° visible alarm display
- Data memory for up to 48 hours of trend graphs, 120 hours of table and graph trend, 1,000 NIBP measurements and 100 alarm events
- Data export possible via LAN with optional software
- Battery and/or mains operated
- Li-Ion battery (operating time up to 4 hours with fully charged battery)
- Carrying handle for mobile use
- Outputs: USB 2.0, VGA output and RJ45 (for software update)
- Supplied with: Monitor, Li-Ion battery, power supply, NIBP cable with one cuff (5.8 – 10.9 cm), ECG cable with terminals, S_pO_2 sensor with clips, temperature probe
- Dimensions (in cm): W 27 x H 21 x D 11
- Weight: approx. 3.2 kg

Item No.	
321900	LifeVet 8M Anaesthesia Monitor
321901	LifeVet 8C Anaesthesia Monitor • Functions such as LifeVet 8M plus capnometry ($EtCO_2$) in the bypass measurement method • Supplied with LifeVet 8M plus CO_2 adapter, CO_2 line and water trap
321902	Mobile Stand for LifeVet 8M and 8C • With basket and holding plate • Secures the monitor with quick release
321903	Wall Bracket for LifeVet 8M and 8C
E32190001	Replacement Battery for LifeVet 8M and 8C • Li-Ion • 11.1 V, 2,600 mAh
E32190002	ECG Master Cable for LifeVet 8M and 8C • 3/5-core
E32190003	ECG Cable for LifeVet 8M and 8C • With 3 lines
E32190004	Alligator Clips for LifeVet 8M and 8C • Pack of 5 pieces
321043	Disposable electrodes for EKG • With a textile plaster • Solid gel • Ø 50 mm • Pack of 30 pieces
E32190005	S_pO_2 Extension Cable for LifeVet 8M and 8C • Length: 2.5 m
321651	Pulse Oximeter Lingual Sensor • Compatible Units (321650/321810/321820/321815/321825)
E32190008	Sensor clip for S_pO_2 tongue clip sensor for LifeVet 8M and 8C • Small

E32190009	Sensor clip for S _p O ₂ tongue clip sensor for LifeVet 8M and 8C • Large
E32190006	NIBP Connection Hose for LifeVet 8M and 8C • Length: 3 m
E32181010	Blood Pressure Cuff for LifeVet 8M and 8C • Circumference 3.1 – 5.7 cm
321904	Blood Pressure Cuff for LifeVet 8M and 8C • Circumference 4.3 – 8.0 cm
321905	Blood Pressure Cuff for LifeVet 8M and 8C • Circumference 5.8 – 10.9 cm
E32181011	Blood Pressure Cuff for LifeVet 8M and 8C • Circumference 7.1 – 13.1 cm
E32181012	Blood Pressure Cuff for LifeVet 8M and 8C • Circumference 8 – 15 cm
E32190007	Temperature Probe for LifeVet 8M and 8C • Oesophageal/rectal
321906	CO ₂ Water Trap for LifeVet 8C
321378	Capnograph Sample Line • Length: 2.4 m • Pack of 10 pieces
321373	Capnograph Connector • For LifeVet CP (321880), LifeVet C (321872) and LifeVet 8C (321901) • Connects endotracheal tube to Y-connector • Straight • Inner Ø: 15 mm • Outer Ø: 15 mm
321907	CO ₂ Airway Adapter for LifeVet 8C • Straight • Inner Ø: 15 mm • Outer Ø: 15 mm • Pack of 10 pieces
321881	LifeVet Scavenging Kit • For the discharge of used measuring gas when used with anaesthetic gas • For connection to anaesthetic suction • Compatible with LifeVet 8M and 8C
321925	EKG / TEMP Oesophageal probe set • Suitable for LifeVet monitoring and anaesthesia monitors (321900 and 321901) • Consists of 2 probes: - small (Ø 6 mm, approx. 4.5 – 13 kg) and - large (Ø 8 mm, from approx. 13 kg)

Cardio Companion with ECG Esophageal Probe Set

This set enables you to take an ECG directly from the esophagus of the narcotized animal.

It can be connected to most anaesthesia monitors (CapnoVet Deluxe, VetVisor Easy, LifeVet M, LifeVet C). It is also suitable for connection to most ECG cables from other devices, as it is compatible with 3 and 5-pin ECGs.

Set includes:

- Probe for cats and small dogs
- Probe for larger dogs
- Control box – Uses crocodile clips to connect the ECG cables of your anaesthesia monitor to an ECG device (e.g. EICKEMEYER® PC-ECG) without the risk of electrical interference or of being touched whilst in use

Item No.

E32116502	Probe for Larger Dogs • Colour: blue • Spare Part

RespiVet NANO Respiratory Monitor for Small Animals

Ultracompact and easy to use respiratory monitor that senses respiration from a 500 g kitten to a 100 kg Great Dane. Integrated alarm alerts you if the patient stops breathing for 30 seconds.

Technical specifications

- Distinctive apnoea alarm
- Conveniently mounted on elbow adapter
- On/Off switch
- Replaceable battery
- Patient Hose Connector: outer Ø: 22 mm, inner Ø: 15 mm
- Tracheal Tube Connector: outer Ø: 15 mm

Item No.

--------	---

RespiVet Respiratory Monitor for Small Animals

The RespiVet Respiratory Monitor is an easy to use and low-cost monitoring solution. The unit has variable sensitivity settings and adjustable audible and visual apnoea alarms.

Technical specifications

- Apnoea Alarm settings: 10 – 60 seconds
- Adjustable sensitivity for patients: 0.5 to 1,000 kg
- Photo eye for handsfree alarm reset
- LED readout of respiration rate
- Acoustic signal for each breath
- Connects endotracheal tube to the anaesthetic circuit
- Patient Hose Connector: outer Ø: 22 mm, inner Ø: 15 mm
- Tracheal Tube Connector: outer Ø: 15 mm
- Rechargeable battery: Up to 70 hours of use
- Dimensions (in cm): L 13 x W 13 x H 6

Item No.

application

EICKEMEYER® Ultrasonic Doppler

Reliable and accurate non-invasive blood pressure monitor for small animals.

- Compact hand-held design
- High sensibility for a clear signal
- Adjustable sound volume and headphone connection
- Focused 8 MHz Probe with wide beam for better flow detection in the artery
- Probe adapted for positioning on the carpal joint or the underside of the tail
- Rechargeable batteries are not interchangeable

Technical specifications

- Ultrasonic frequency: 8 MHz
- Operating time: 6 hours
- Dimensions (in cm): L 17.5 x W 8 x H 2.5
- Weight: 300 g

LAVC-2000-D Anaesthetic Machine for Large Animals

The LAVC-2000-D offers the same control over the patient as the LAVC-2000 but adds the ability to passively breathe with a 30 litre bag.

The absorber canister is mounted on the side to allow the bag to hang properly and with the switching of a single hose you can alternate between the bellows and the bag. This allows for a superior level of control and safety.

Includes:

- EICKEMEYER® TEC 3 Isoflurane Vaporiser
- Flowmeter (0 to 10 litres/min), O₂ bypass, flush valve and pressure gauge
- Includes BIRD respirator for spontaneous, assisted and/or controlled ventilation
- Two corrugated anaesthetic tubes
- Y-Piece Connector with 4 adapters (18/20/25/30 mm)
- Cook Adapter

Item No.

LAPD-1000 Anaesthetic Machine for Large Animals

The LAPD-1000 is a passive anaesthesia machine that is the ultimate blend of simplicity, ergonomics, and efficiency.

The machine was designed to be user-friendly and to allow the operator to expand the capabilities of their practice and use it together with a ventilator. Suitable for large animals.

Includes:

- Flowmeter (0 to 10 litres/min)
- EICKEMEYER® TEC 3 Isoflurane Vaporiser
- 30 Litre Breathing bag
- Y-Piece Connector and 4 adapters (18/20/25/30 mm)
