

Production of an allergen-specific immunotherapy (ASIT, hyposensitization) HORSE

Pet-owner: _____

Practice address

Animal name: _____

Number of allergy test result:

Date, stamp, signature

Rp: Order ASIT – Prescription:

I hereby order for the animal tested with test number (see above) an allergen-specific immunotherapy (ASIT, hyposensitization injectable solution). Dosage and duration of treatment: see package insert from producer inside product.

starter set (set consisting of 2 vials á 5ml with red and green caps)

single set (at most 8 allergens or allergen mixes per set)

double set (if more than 8 allergens/mixes need to be included they are distributed in 2 sets)

The ASIT solution should consist of the allergens tested positive in the above mentioned test result.

OR

I would like to include the allergens marked with a cross below in the allergen list (further allergens are available on request)

refill set (1 vial á 10ml with red cap)

single set (at most 8 allergens or allergen mixes per set)

double set (if more than 8 allergens/mixes need to be included they are distributed in 2 sets)
