PRO-C Probiotic

FRIENDLY BACTERIA WITH VITAMIN C
AND DEXTROSE FOR DIGESTIVE SUPPORT

Pro-C Probiotic is particularly valuable when animals are undergoing stress, veterinary treatment or changing home. The function of the probiotic is to assist the natural gut flora to re-establish itself, whilst the prebiotic supplies soluble fibre. It is also particularly useful in supporting the general health of older animals.

REPTOBOOST®

AN ELECTROLYTE AND ENERGY DRINK FOR SNAKES,
LIZARDS & TORTOISES IN NEED OF A PICK-ME-UP

Reptoblast® is a carefully blended mixture of glucose and maltodextrins for energy, electrolytes and probiotics to help debilitated reptiles as a pick-me-up. **Reptoblast®** in the drinking water will provide the extra energy needed by animals that may be under veterinary treatment, or for tortoises that have just woken up.

ACE-HIGH

A MULTIVITAMIN/MINERAL SUPPLEMENT, SPECIALLY ENHANCED
WITH VITAMINS A, C & E, AS WELL AS CALCIUM AND PHOSPHORUS

ACE-HIGH has been formulated to provide enhanced levels of vitamins A, C, E, as well as calcium and phosphorus. When used regularly as part of a balanced diet, **ACE-HIGH** compensates for vitamins lost in storage, processing or feeding, and helps animals maintain adequate levels of important vitamins during periods of stress or disease.

NUTROGRUB®

A BUG FOOD CONTAINING PROTEIN, VITAMINS, CALCIUM
& VITAMIN D3 FOR IMPROVING THE CALCIUM LEVEL OF INSECTS

NUTROGRUB® is based on a highly palatable vegetable protein source rich in calcium and vitamins and is further enhanced with Vetark Nutrobal calcium balancer, and Vetark Calci-Dust. In addition to feeding the insects, it helps their protein level, and is proven to enhance their calcium and vitamin D3 content prior to using them as feed for insect eating animals.

Did you know that calcium and vitamin D3 nutritional deficiencies can cause debilitating health conditions in birds, small mammals and reptiles

ZOLCAL-F LIQUID CALCIUM AND VITAMIN D3 SUPPLEMENT

Zolcal-F is a liquid calcium salt and vitamin D3 supplement to maintain the correct calcium level which can be given directly or via drinking water or food. **ZOLCAL-F** feed provides 3.25 mg calcium / ml, 4 IU vitamin D3/ml. Routinely use 10ml (2 teaspoons) per 100 ml of drinking water or give by direct administration at a rate of 1 ml per 100g of animal. Or pour/sprinkle onto food at a rate of 25 ml (half teaspoon) per 250g of food.

- ✓ To be used as an oral supplement in situations where extra calcium is needed quickly
- ✓ High acceptance is a feature of **ZOLCAL-F** feed
- ✓ Suitable for birds, reptiles, rabbits and minor species where additional calcium or vitamin D3 is needed
